Noelle, Beth,

I wanted to be sure you were aware of the following records request we received from the Triangle Business Journal. I think I had mentioned it at the time the reporter was preparing to interview Secretary Regan before the holidays, but just wanted to be sure you had seen her request. We are still working on the request and I'll keep you apprised of our progress. Naturally, we told the reporter we would not have any correspondence between Commerce staff.
JK

CAUTION: External email. Do not click links or open attachments unless verified. Send all suspicious email as an attachment to report.spam@nc.gov.

Hope all is well. Thanks for the chat earlier!

On an unrelated note, we're doubling down on our Atlantic Coast Pipeline coverage and I wanted to go ahead and make a public records request for emails and other correspondence to and **between Commerce staff** regarding the ACP since FERC issued its permissions Oct. 13. Thanks. Let me know if there are any issues.

Pursuant to N.C. G.S. 132-1 et seq, the North Carolina Public Records Act, I respectfully request access to the following public records as defined by that statute.

Please provide me copies of the following public records in your custody received or created between Oct. 13 and the present: Email correspondence to/from/between staff regarding Atlantic Coast Pipeline. This request should include documents referencing the project as well as correspondence between the department and Duke Energy and Dominion Energy.

I'd prefer electronic copies via email or DropBox, but could provide a USB drive.

I request that you make these records available on or before Jan. 12. Please take into account that the Public Records Act specifically provides that public records requested by any member of the public shall be provided "as promptly as possible."

If for any reason, you anticipate that you cannot produce the records by that date, please contact me by telephone or email to let me know the reason why and the date on which you can produce them. If you believe that any of the records requested are exempt from disclosure, please cite the specific statutory (or other) basis for that belief.

If you anticipate that you will charge me for the production of the records, please cite the portion of the Public Records Act authorizing such charges and provide me an estimate of the proposed charges and the manner in which such charges were calculated.

--
